I am liquidating studio photographic gear for a friend. Most of this is in excellent condition, and some of it has never been used. Not interested in lowballing - this is ball low pricing already!

This gear is geared toward sports team photography on location. If you want to know more about it? Go to <https://www.paulcbuff.com/> . Essentially, a lot of Buff gear is a knock-off of more expensive gear made (in the past) in countries other than China. Most of this is Chinese made, but stands are stands and clamps are clamps. They work. Conditions are 1-10 and 10 being BEST. Some of the Buff gear is dependent on Buff lighting.

There may be more images not shown here! Just ask if you don't see a image of an item!
